Sangoma Europe Cloud Services Overview

Switchvox Cloud provides hosted telephony with full UC features and call recording at a great price. Each seat includes 1000 minutes monthly bundle of UK fixed and mobile calls

Switchvox as a Service provides hosted telephony with full UC features and call recording at a great price, plus the flexibility to choose your SIP Provider.

SIPStation provides high capacity SIP business trunks. Each trunk provides a single outbound or inbound call path for calling. Available in 2 options: Inclusive where each call path includes 3000 minutes of calling to/from UK landlines & mobiles. Pay As You Go where only the minutes you use are billed.

Number Porting

Lead Time: 7 days single number. Up to 25 days for complex number ranges.

UK mobile numbers can be ported.

Charges: £25.00 per number (Max. charge for a block £135.00)

Process: Sangoma will provide a Letter Of Authorisation to the customer. This must be filled in accurately. If any information is incorrect or inaccurate this may cause the number port to be rejected. If rejected a new port will be required and customer will be charged.
